New ⌘N  
Open ⌘O  
Close Window ⌘W  
Save ⌘S  
Save As ⇧⌘S  
Print ⌘P  
Logout  
Change Password

Selecting the print function will display the operating systems default print dialog window. Here, the user has the choice to preview as a PDF or to print it. This print function is primarily going to be used for printing and exporting Loan invoices, but will also be incorporated into the display records layouts.
